### Annual fire drill of the fire brigade on cavern site

*Joint exercise of local and municipal fire brigades on July 1, 2023*

**Bremen, 28.06.2023:** On Saturday, July 1, 2023, the fire brigades of the municipality of Friedeburg conduct a fire drill on the cavern site in Etzel. The exercise takes place every year and is carried out alternately at different storage cavern operators. For this purpose, there might be increased vehicle traffic and possible traffic obstructions on the cavern site and associated roads from 9:00 a.m. till approx. 1:00 p.m. No disruptions on the main road 436 and the roads around the village of Etzel are expected.

As this is a realistic exercise, the special signaling systems of the fire engines are used. Please note that during the exercise smoke development due to non-hazardous exercise smoke is possible on parts of the cavern site and VT16.

#### Company Information:

EKB Storage operates a natural gas cavern storage facility in Etzel, East Frisia (municipality of Friedeburg, near Wilhelmshaven)
