EKB auctions Working Gas Volume of 55 GWh

Bremen, August 1, 2023: EKB will market an additional Working Gas Volume of 55 GWh for this storage year. This additional capacity will be made available in the period from August 16, 2023 at 6:00 a.m. until April 1, 2024 at 6:00 a.m.

The auction documents are available in the [download area](#) of the homepage.

Company Information:

EKB Storage is a joint venture and operates a natural gas cavern storage facility in Etzel, East Frisia (municipality of Friedeburg, near Wilhelmshaven).

This facility, operated by EKB Storage, currently has nine underground caverns in operation and is one of the most efficient commercial storage facilities in Germany: 450,000 cubic meters of natural gas can be injected and 800,000 cubic meters withdrawn per hour.
